## 1250 Gallon Field Boss Pull-Type Sprayer

**QUALITY** - Heavy duty frame that will withstand the twists and turns of hills, terraces and washouts. The unit has a parking jack and in-tongue walk-up steps to the fill platform. 1250 gallon poly tank with molded in markings and wash tank. Multi hydraulic valve bank allows for seven function boom system but only requires one tractor outlet. Total boom suspension. All boom functions are cushioned for extended boom life. Dual parallel lift arms for boom height control 20" to 60". Spring loaded heavy duty cross axle coupled with 12.4x38 tires makes for a smooth ride over the roughest ground. The enhanced ride provides for a more uniform spray application. Dual pumping system facilitates less foaming problems and a complete and easy tank clean out. Raven Automatic spray controller. Motorized boom valves allow easy on/off of each boom section as you start, finish a field, work over terraces and point rows. The Field Boss is built to withstand the rigorous use of today's no-till farming. Perfectly matched Performance, Durability and Price.

**PERFORMANCE** - Reduced down time  
 Reduced labor cost  
 State of the art 90', five section boom  
 Radial tires for compaction control  
 Excellent return on investment

**PRODUCTIVITY** - Two fills per quarter  
 89 acres per hour  
 High speed 7 to 12 mph  
 Low equipment cost per hour

### OPTIONAL

- chemical inductor
- foam marker
- light bar
- auto steer
- 60', 80', 90' booms
- wheel size
